

# Ankor Review Guide

**Ankor for iPhone**

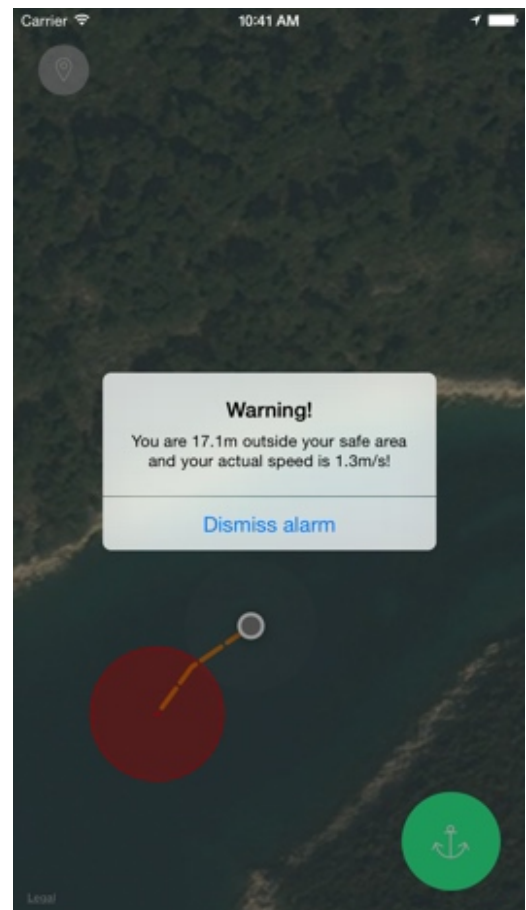

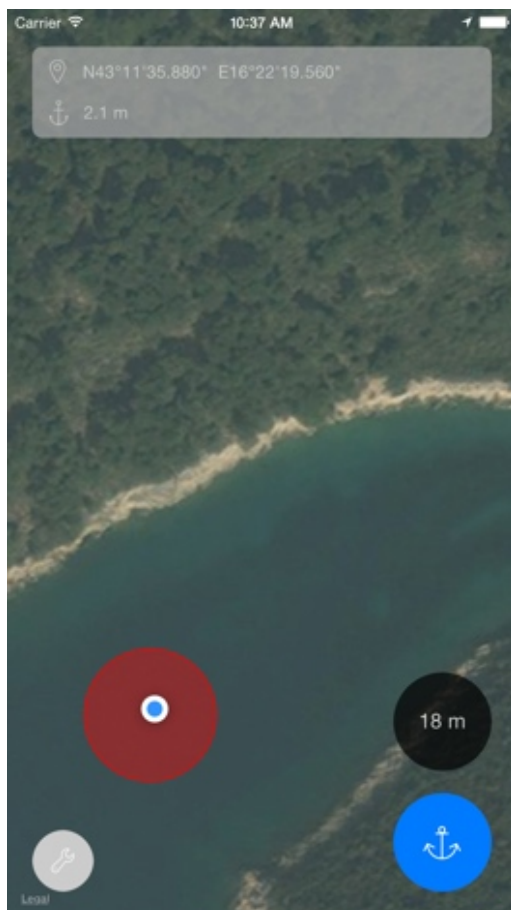

**Requires:** iOS 8.0 or newer **Price:** \$0.99

**[Website](#) | [AppStore](#)**

# Ankor

Ankor is an easy to use **anchor watch** and **anchor alarm** application designed for your iPhone. Fully packed with features, so you can use it when anchoring your boat or traveling.

Don't forget to take Ankor with you to fully enjoy your sailing holiday.

# **Ankor main features**

## **Accurate anchor watch**

Anchoring your boat can be tricky, especially when the wind blows or your boat's anchor does not hold well. But with Ankor, you will be instantly warned, when your boat has moved out of your specified area. So you can relax and enjoy the day.

## **View recent movement when anchoring**

When anchoring, it is always great to know the location of your boat's anchor, so you can properly setup the safe area. Now it is very easy with displaying your recent movement enabled. You can also see, in which direction your boat is being dragged.

## **Background execution**

Ankor is developed to run in background, so you can use your iPhone and still be warned.

## **Location information displayed**

With location panel, you can see your actual latitude, longitude and distance from the center of the safe area. When you don't need those informations, you can simply hide the panel for better visibility.

## **Everything is configurable**

We made Ankor configurable, so it will suit your needs.

## Change accuracy to save battery life

Ankor is developed with focus on your battery life. You can even switch accuracy levels to save battery life.

## FAQs

### How much does Ankor cost?

Ankor costs \$0.99.

### What are the system requirements?

Ankor supports iPhones with iOS 8.0 and newer.

### Is also background location update and anchor watch supported?

Yes, Ankor watches the anchor also when running in background.

### How will I be warned when Ankor runs in background?

Ankor running in background uses notifications to warn you instantly about your movement outside the safe area.
